

Syntax

```
C#  
public Circle(Color c, int x, int y, int radius) : base(x, y)
```

Parameters

c
x
20
y
10
radius
30

Syntax

```
C#  
public override void draw(Graphics g, Color c, int thickness)
```

Parameters

g
c
thickness

Syntax

```
C#  
public override void fill(Graphics g, Color c)
```

Parameters

g
4
c
4

Syntax

```
C#  
public int getRadius()
```

Return Value

Syntax

```
C#  
public override void set(Color color, params int[] list)
```

Parameters

color
red
list
xyz
